

WHEN SCHOOL'S OUT, THE VISTAS ARE ALL IN

Supporting Youth Mental Health All Summer Long

When the school year ends, routines shift. Daily supports — teachers, counselors, structure — pause. For some young people, that change can feel overwhelming.

At MiraVista Behavioral Health Center in Holyoke and TaraVista Behavioral Health Center in Devens, we're here — through every season — providing compassionate, structured inpatient mental health care for school age youth when it's needed most.

THROUGHOUT THE SUMMER AND EVERY SEASON, WE PROVIDE:

A safe, supportive environment for youth ages 5+

A Direct Admission process — no Emergency Department visit required

24/7 access to care

A team that understands the importance of timely, coordinated support

FOR PROVIDERS, FAMILIES, AND COMMUNITY PARTNERS

If a young person needs a higher level of care this summer, you don't have to navigate that next step alone. We're here to help — every step of the way.

TWO FACILITIES. ONE NEW ENGLAND REACH.
